

Septimatech Easy Adjust Guide Rails

Reduce Guide Rail Changes From Hours to Minutes—No Fine Tuning Required

Septimatech Easy Adjust Rails® deliver fast, repeatable guide rail adjustment and changeover, without pneumatics or other high maintenance components. Precisely adjust up to 80 feet of guide rail in seconds from one location. Adjustments are accurate and repeatable to plus or minus 1 mm. Numerical displays provide quick setting confirmation. No fine tuning or change parts required.

Easy Adjust Rails® improve product handling, line flexibility and efficiency. Most customers realize an ROI in less than a year based on three, 30-minute changeovers per week. Programmable automatic adjusters are available as an optional upgrade.

Benefits

- Reduces changeover time
- Fast, accurate, repeatable setups
- No fine tuning required
- Maintains position during back pressure
- Provides consistent handling for containers and boxes of any size or shape
- Easy installation on existing conveyors
- Quick ROI and low Total Cost of Ownership

Adjust up to 80 feet of curved guide rails from one location in seconds, including curves, corners, crossovers and straight sections.

Features

- One-time calibration
- Single-sided or dual adjusters available
- Accurate to plus or minus 1 mm
- Small footprint
- Maintenance-free
- Sustainable – no compressed air resources required
- Components inert to most caustic solutions
- Washdown capable

Dual-Tier adjustable points using a rack and pinion

Precise numerical display and smooth, easy crank handle
