

Septimatech Feed Screws

Custom, Precision Feed Screws for Optimum Throughput and Less Waste

Septimatech Feed Screws are customized to your container control, timing and sequencing needs. Our industry leading experience in designing feed screw solutions combined with state-of-the-art manufacturing and simulation ensure superior pocket-to-pocket accuracy and container flow. Smooth surfaces prevent scuffing and marking on labels and containers. Hygienic design available for pharmaceutical and other clean room requirements.

We offer quick lead times and cost-effective solutions for all your feed screw applications, regardless of container size and shape.

Benefits

- Custom-made to your machine and application
- Precise pocket-to-pocket consistency
- Enhanced container control
- Fast, tool-less changeover
- Short lead times

Features

- Color-coding for easy identification
- Custom engraving
- Manufactured for any machine make and model
- Long-wear, abrasion resistant life

Color-coded for easy identification

Applications

Timing: spacing, metering, dwelling, skip feeding, indexing

Control: back pressure, tilting, orientation, primed infeed

Grouping: sequencing, dividing, and turning

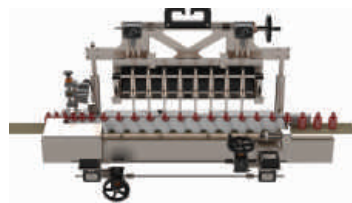

Filling: capping and measuring applications

Inspection: leak detection and quality control

Guides: Feed screws with guides and turnover chutes

High Speed: Up to 2,000 containers per minute

Container Sizes: Vials to 5-gallon containers

Indexing for inline filling and inspection.

Programmable container infeed.

Container rotation.

Pocket-to-pocket consistency.

Proven Performance in Every Packaging Changeover
